

CHRISTIE'S

Attention: To Whom It May Concern

Reference: Full Works Facilities Management Ltd. Recommendation.

Full Works Facilities Management Ltd. have undertaken multiple minor works and projects for Christie's over the last 2 years. Some of which have been at short notice but Paul Harris and his team showed willing and were flexible in their approach for me to meet the pressures of the business at Christie's. Full Works are easy to work with and demonstrate good communication. I have been happy with the result and standard of finish of the works they have completed. Full Works are professional and have completed projects on time and I would recommend them for any facilities and building related projects and maintenance works.

Yours Sincerely,

Edward Smith

Facilities Manager
Operations
